BEDROOM 2	BEDROOM 3	LOFT ACCESS

05 Condition assessment

ROOF GOOD	DAMP GOOD	WINDOWS OK
HEATING GOOD	ELECTRICS GOOD	STRUCTURE GOOD

Viewing notes (Connor Blades, on site): Roof inspected from ground - concrete tiles in good order, no obvious slipped or missing tiles. Damp meter readings normal throughout. Gas combi boiler replaced 2021 (sticker visible). Electrics last certified 2019 (consumer unit photographed).

UPVC windows are 12-15 years old, functional but on the older side - replacement is a 5-year consideration, not immediate. Light cosmetic refurb only required.

Amber flag - planning: Neighbour at No. 8 submitted a planning application 11 March 2026 (ref. 26/00184/FUL) for a single-storey rear extension. The application is under consideration. Bullseye's review of the planning portal indicates no overlooking impact on the subject property's garden or rear elevation. Recommend monitoring through to determination (expected July 2026) but not a deal-blocker.

09 Refurbishment plan

Light cosmetic refurb only. Property is lettable as-is but a small spend will improve EPC rating to C and let-ready presentation.

ITEM	DETAIL	COST	LEAD TIME
Paint and decoration	Whole house, neutral palette	£1,400	1 week
Carpets	Living areas and 3 bedrooms	£900	3 days
Kitchen refresh	New worktop, handles, tap, splashback	£1,800	1 week
Bathroom touch-up	Re-grout, taps, mirror, paint	£400	2 days
Items subtotal		**£4,500**	
Contingency (10%)		£450	
Total refurb		**£4,950**	

TOTAL COST	ESTIMATED TIMELINE	EPC AFTER WORKS
£4,950	3 weeks	C (74)

EPC uplift: Combined with loft top-up insulation (already included as part of paint and decoration scope at £150) and LED bulb replacement, modelled to lift EPC from D (62) to C (74). This is critical for forward-compatibility with anticipated 2027 minimum EPC C requirement for new tenancies.

RETURNS

GROSS YIELD	NET YIELD	ROI (CASH, YR 1)	EQUITY AT PURCHASE
8.5%	6.5%	5.7%	£25,500

Stress test: At +1% mortgage rate and 15% void (worst-case for the area), net yield holds at 4.8%. Cash flow remains positive even under combined stress. Investment-grade by Bullseye's internal stress criteria.

All figures based on cash purchase. If financed via BTL mortgage (75% LTV at 5.8% interest), modelled annual cash-on-cash return rises to 9.2% and equity required reduces to £35,500. Full mortgage scenario modelling available on request.

11 Local growth drivers

The capital growth assumption used in the projection (3.0% per year, conservative against the 10-year South Yorkshire and North Nottinghamshire average) is anchored on four concrete local factors documented below. Each driver is verified against public sources and direct local knowledge.

KING'S MILL HOSPITAL EXPANSION
[IMAGE UPLOAD SLOT]

King's Mill Hospital

1.8 miles. NHS major employer with 4,000+ staff. £100m+ expansion (new emergency department + women's services unit) confirmed 2025. Drives consistent rental demand from medical professionals, support staff and contractor workforce.

MANSFIELD TOWN CENTRE REGENERATION
[IMAGE UPLOAD SLOT]

Town centre regeneration

£18m Mansfield Town Centre Masterplan confirmed 2024. High street modernisation, public realm improvements, Sherwood Discovery Centre. Material uplift expected in NG18 desirability and rental rates over 5-10 years.

ROBIN HOOD LINE CONNECTIVITY
[IMAGE UPLOAD SLOT]

Transport: Robin Hood Line

Direct rail to Nottingham city centre (28 min). EMA airport 35 min. Half-hourly service proposals from 2027 would broaden the tenant pool to Nottingham-based professionals and materially raise rents on commuter-grade stock.

SCHOOL CATCHMENT RATINGS
[IMAGE UPLOAD SLOT]

School catchments

Forest Town Primary (Good, Ofsted 2024) at 0.4 miles. Queen Elizabeth's Academy (Good, Ofsted 2023) at 0.9 miles with sixth form. Catchment property typically commands 5-8% premium and lets within 14 days of listing.

SUPPORTING MARKET FUNDAMENTALS

LOCAL EMPLOYMENT RATE	MEDIAN HOUSEHOLD INCOME	RENTAL DEMAND INDEX	10-YR AREA HPI
74%	£29,800	78 / 100	+34%

> **Why 3% is conservative.** Mansfield district HPI growth has averaged 3.4% per year over the last decade (Land Registry, 2014-2024). The model uses 3.0% to give a defensible floor that holds even if one of the four named drivers underperforms. Upside cases at 3.5-4% are tested in the sensitivity row of Section 12.

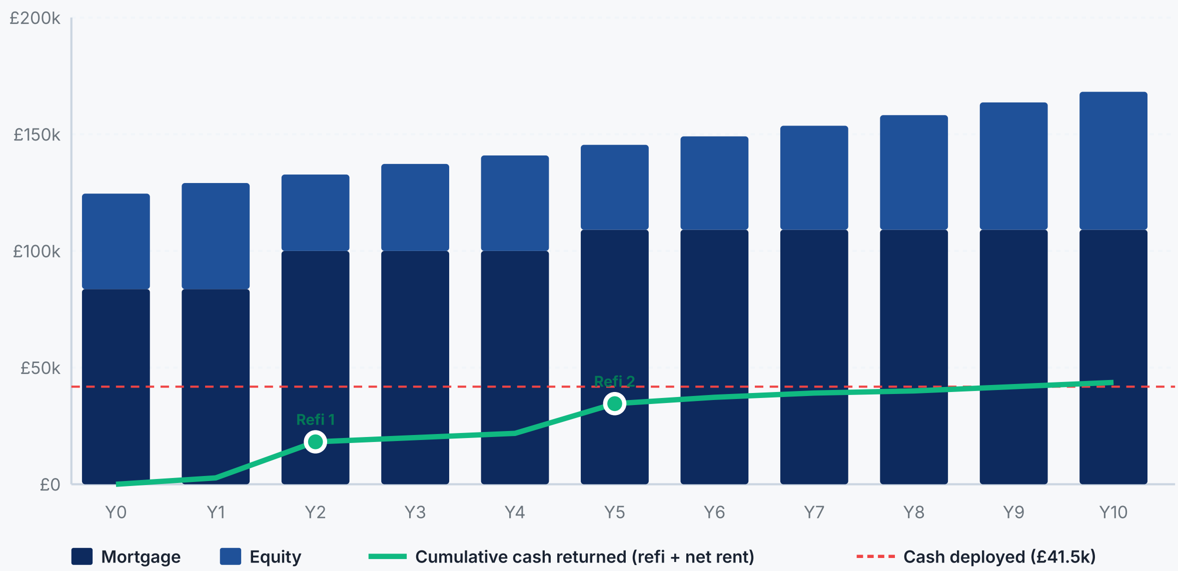
12 Equity projection and exit scenarios

The growth drivers in Section 11 justify the assumptions below. This is the modelled 10-year hold across two refinance events, with one fixed-rate stress scenario.

ASSUMPTIONS

CAPITAL GROWTH PA	RENTAL GROWTH PA	BTL MORTGAGE RATE	LTV AT PURCHASE
3.0%	2.0%	5.8% IO	75%

10-YEAR EQUITY AND CASH-RETURN PROJECTION



REFINANCE 1 - YEAR 2

Property revalues at £132,613 after the refurb settles and market growth compounds. Refinance at 75% LTV creates a new £99,460 mortgage and clears the original £84,375 loan.

CASH EXTRACTED

£13,585

REFINANCE 2 - YEAR 5

Property value rises to £144,910 on 3% pa growth. Second refinance at 75% LTV unlocks further cash without selling.

CASH EXTRACTED

£7,723

EXIT SCENARIOS

SCENARIO	YEAR	PROPERTY VALUE	CASH RETURNED	NET GAIN ON £41.5K	IRR
Refinance and hold (cash extracted + cumulative net rent)	10	£167,990	£43,000	+£1,500	~3%

Sell at Year 5 (after Refi 1)	**5**	**£144,910**	**£57,300**	**+£15,800**	**~8%**
Sell at Year 10 (after both refis)	**10**	**£167,990**	**£101,000**	**+£59,500**	**~9%**

> **Headline.** The original £41,500 cash investment is fully recouped by year 9 through refinancing and net rental cashflow alone, without selling. If you sell at year 10, total cash returned is approximately £101,000 - a £59,500 net gain on the original deployment (~9% IRR). At 4% capital growth this rises to roughly £70,000 net gain; at 2% growth it falls to roughly £48,000. The projection is sensitive to growth assumptions; the model is conservative against the South Yorkshire and North Nottinghamshire 10-year average.

13 Offer recommendation

RECOMMENDED OFFER

£112,500

17% below £135,000 asking · 18% below £138,000 comp median · Net acquisition cost £127,475 incl. all fees and refurb

ANCHOR

The comp median is £138,000 (adjusted). Vendor has reduced from initial £145,000 in February 2026, suggesting motivation. Property has been on market for 89 days.

STRATEGY

Open at **£108,000**, anchoring on the £4,950 refurb required and the EPC D rating (with reference to the looming 2027 EPC C requirement). Be prepared for vendor counter at £118,000-£120,000. Settle in **£110,000-£115,000** range. Walk away above £118,000.

TIMING

Make the offer this week. Estate agent is the listing agent only (no sourcing of competing buyers). Vendor's circumstances (downsizing, indicated through agent) align with a quick exchange.
